Name:

## Abdulrahman Alolayan

Hello, my name is Abdulrahman Alolayan. I am a BSc student in Cyber Security at the University of Jeddah. I aspire to graduate with a great educational attainment so that I can become an active member of society and play a major role in the wheel of development and societal renaissance through full knowledge of all aspects of my profession to the degree of professionalism and creativity.

[About Me](#) [Education](#) [Project](#) [Contact me](#)

University:

jeddah university

College of Computer Science and Engineering 2021 - now

Skills:

I have many courses and skills that I passed during my study journey until now, Including:

C
Java
SQL
Database Developer
Discrete mathematics
Computer networks
And Others...

[About Me](#) [Education](#) [Project](#) [Contact me](#)

Some of my Projects Examples:

## 1 - Employee record management system

An employee Record Management system using linked list that can perform the following operations:

Insert employee record
Delete employee record
Update employee record
Show details of an employee
Search an employee
Update the salary of an employee

## 2 - Advanced Courses Library

**Problem Description:**

One of the most common things we hear students ask about at the start of every term is where they can find additional resources on a specific course. This usually results in a very long, tedious and sometimes fruitless search. Our project aims to help students find the resources they're looking for faster and easier than ever before by making a comprehensive database that contains all the resources a student needs
